My A level chemistry teacher had an old copy of this book, and I ve since bought my own to use when tutoring. Compared to modern textbooks, Ramsden s looks outdated and bland. This is however compensated for by clear explanations and in depth coverage of the topics.

I used this book to review all of the chemistry required for the GAMSAT. Its fantastic - easy to read interspersed with great examples throughout. My only dig is that's its a bit dry in its coverage of the subject. But when you want to get through topics fast, I prefer a book without much waffle, and this one fits the bill.
